FOR IMMEDIATE RELEASE

Boyken Awarded Contract for Thibodaux Regional Medical Center

Boyken to provide cost and schedule management for \$23 million South Hospital Project

Houston, TX (April 8, 2008) – Boyken International, a worldwide program management and consulting firm, announced today that the company has been awarded a project control contract to provide cost and schedule management services for Thibodaux Regional Medical Center’s \$23 million South Hospital Project.

Boyken’s Houston office will lead project controls for the 51,000 square-foot South Hospital Project, which is a continuation of a multi-phase renovation and expansion at Thibodaux Regional Medical Center, located in southwest Louisiana’s Lafourche Parish.

“Development in the Gulf Coast, particularly in the healthcare sector, is strained by surging demand in a rapidly changing market,” explains Robert Ferguson, director of operations for Boyken’s Houston office. “Experienced project managers know how to manage limited resources by setting project controls in place to protect a project from escalating costs and schedule delays. Thibodaux Regional Medical Center has brought Boyken on board to ensure South Hospital Project will successfully meet the projected budget and timeline.”

Thibodaux Regional Medical Center is one of the highest-rated hospitals in the U.S. for patient satisfaction. South Hospital Project is currently in the design phase and construction is expected to begin in April 2008.

About Boyken International

Boyken International was founded in 1980 and is an international construction consulting firm that provides professional consulting services – from concept through completion – to building owners, developers and other construction industry clients. Based in Atlanta with offices in Orlando, Houston

and Dallas, the firm has a staff of 80 professionals who provide services in strategic planning, development program management, cost estimating and management, scheduling, inspection services, due diligence, as well as dispute resolution. The firm is consistently ranked among the top U.S. program management firms and the top U.S. construction management for fee firms, according to the industry trade publication, *Engineering News-Record* (ENR). More information is available at www.boyken.com.
