**HYDROGEN GROUP EXPANDS HOUSTON OIL & GAS RECRUITMENT PRACTICE
MICHAEL COURT NAMED SENIOR HSE CONSULTANT**

Practice Supports Demand for Contract and Volume Recruitment Services

HOUSTON (March 12, 2014) – [Hydrogen Group](#), a global specialist recruitment firm, has appointed Michael Court as Senior HSE Consultant and added five recruitment specialists since January 2014 to its Houston-based North American oil and gas practice. Hydrogen, which excels at locating hard-to-find, highly technical oil and gas professionals, will now also offer contract and volume recruitment services across upstream technical specialties.

“The oil and gas industry continues to experience a shortage of talented professionals, especially in the health and safety field,” said Denise McNulty, vice president and managing director of Hydrogen USA. “Michael brings a wealth of experience to our team and will help Houston find the most sought-after talent to accommodate their HSQE employment needs.”

Court has more than five years of global recruitment experience with the Hydrogen Group, helping companies secure exceptional mid to senior level talent in niche specialties. He has previously worked in Hydrogen’s Edinburgh, UK practice. He earned a bachelor’s degree in business economics and business law from the London Metropolitan University.

With local expertise and ability to leverage global practices in Dubai, London, Singapore, Stavanger and Sydney, Hydrogen has steadily increased its U.S. operations and represents some of the most reputable energy companies and talented industry experts. Thanks to its practice-oriented approach, using the latest technology and developing long-term relationships with industry experts, the company provides its clients with the best candidates, often those who are not actively looking to make career changes.

About Hydrogen

Hydrogen is a global specialist recruitment business, placing exceptional, hard to find candidates in more than 70 countries. The company combines international reach with local expertise and specialist knowledge. By being practice-led and using the latest technology, Hydrogen provides clients with global visibility of the best candidates.
